

I can't imagine why you would attempt to interrupt the blessed peace we in NJ are finally enjoying. Prior to this, my phone rang from early AM to 9 PM. I care for my elderly mother and shutting the phone off is not an option. Please do not, I repeat, DO NOT change our Do Not Call Act. It is a quality of life issue and as a hard working, tax paying, voting, RN, I feel I've earned the right and have the ability to decide what is appropriate in this regard. I do not need the FCC to play Big Brother for me. My choice was clear when I signed up for NJ's Act.
